STATEWIDE SUMMARY OF
MUNICIPAL FINANCE

FOR THE FISCAL YEARS ENDED IN

1970

MICHAEL J. HOWLETT
Auditor of Public Accounts

[Printed by authority of the State of Illinois]

FOREWORD

Under the Illinois Municipal Auditing Law, the Auditor of Public Accounts is required to publish once a year a State-wide Summary of the fiscal operations of incorporated municipalities in the State.

This summary provides every interested citizen with an opportunity to compare the expenses and revenue sources of his own city or village with what is being done in comparable municipalities elsewhere in the State.

The statistics presented here are of special interest to local office holders, legislators and civic organizations. The municipalities are presented in five groupings, by population size, and are listed in the order of population within each group.

We acknowledge gratefully the assistance of municipal officers, members of the Municipal Audit Advisory Board and other authorities on municipal finance who have helped make this 1970 edition complete.

This summary is based on reports submitted to the office of the Auditor of Public Accounts, as required by law. We will welcome any suggestions for further strengthening the value of the summary from year to year.

Respectfully yours,

Michael J. Howlett

Municipalities.	3-16
Statistical information	17-28
Summary of financial data for municipalities ---	
Table I --- less than 800 population having no public utility.	30-35
Table II -- less than 1000 population (excluding those municipalities listed in Table I).	36-59
Table III - having 1000 through 4,999 population	60-75
Table IV -- having 5000 through 9,999 population	76-79
Table V --- having population of 10,000 and over	80-87

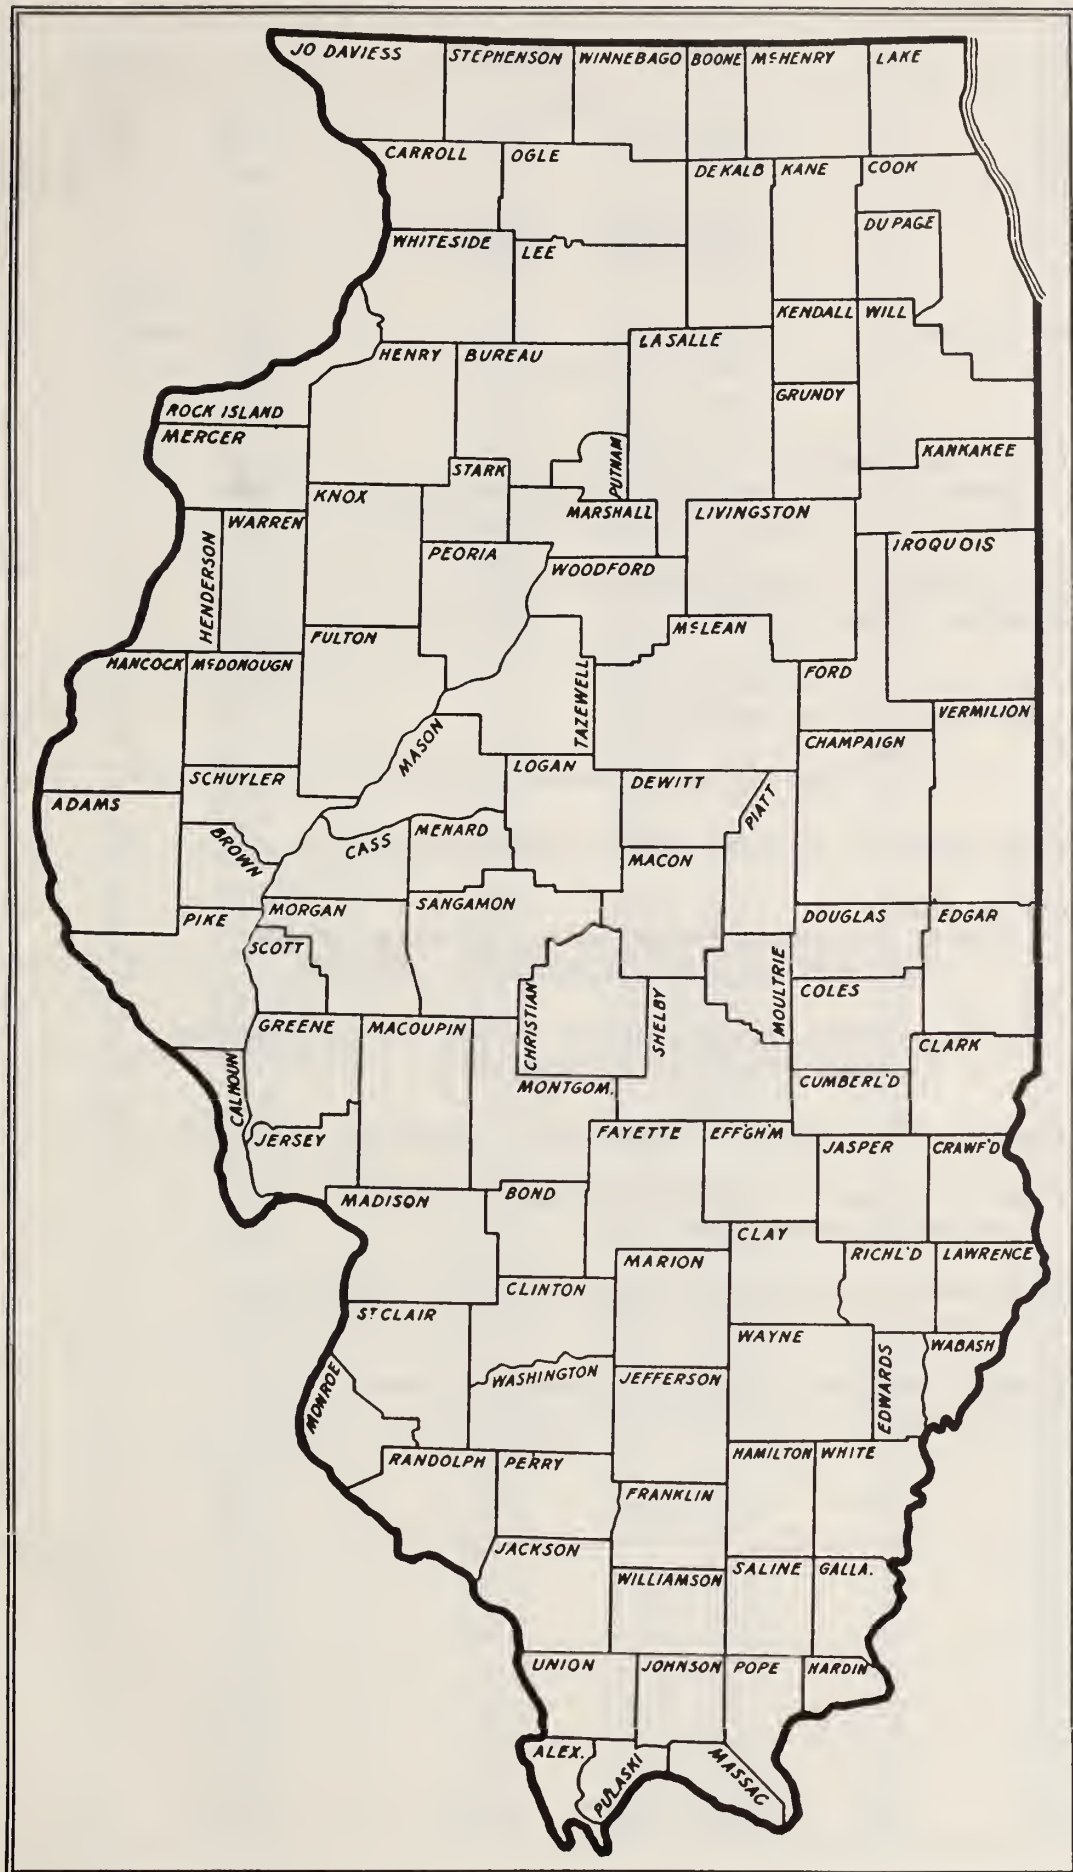

INTRODUCTION

The data within this summary reflects the financial operations of villages, towns and cities in the State of Illinois.

It is based on reports submitted by every municipality in the State except the City of Chicago, which is exempt by law from submitting reports.

The Auditor of Public Accounts is responsible for determining that municipalities engage licensed accountants of their own choosing for this work, that reports are prepared on time, and that a copy of each report be made available as a matter of public record in the office of the Auditor of Public Accounts.

The municipalities are grouped by population size as shown by the table of contents, and are listed in the order of population within each group. This will permit easy comparison among communities of similar size.

INDEX

STATISTICAL INFORMATION

Description	Chart Number	Page Number
Forms of government		
Number of municipalities using each type	1	17
Percentage by type, of total reporting	2	18
Fiscal year end, number by month ending	3	18
Accounting system in use	4	19
Revenue, by major source for all municipalities reporting -		
Amount	5	20
Percentage by major source to total	6	21
Garbage disposal service, number of municipalities . . .	7	22
Bonds payable -		
General obligation bonds, as a percentage of the equalized assessed valuation of property. . . .	8	23
Revenue bonds, Average dollar amount per municipality by table grouping, by population	9	24
Information by population groupings - - dollars		25
Per capita amounts of selected financial items by population groupings		26
Information on amounts of selected financial items by county		27
Per capita amounts by selected financial items by county		28

* Listed out of alphabetical sequence

Number of Illinois Municipalities using each type of Municipal Government

Number of Municipalities

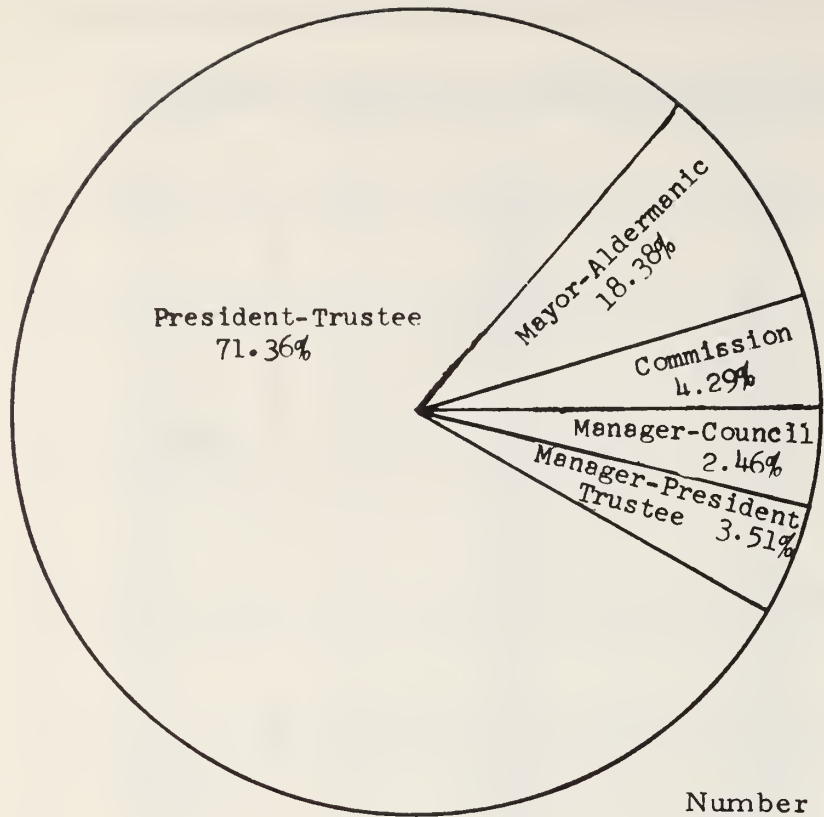

Chart No. 2

Percentage of each type of Municipal Government, in force to the total number of Municipalities reporting.

1970

Number of Municipalities

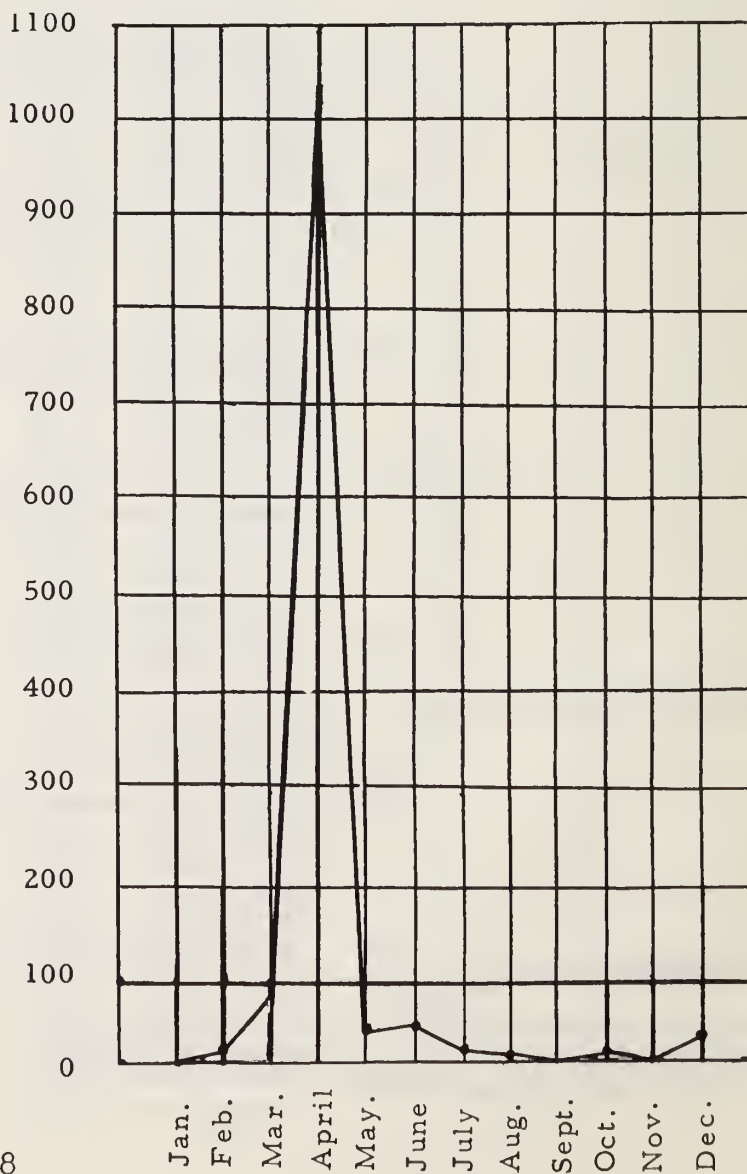

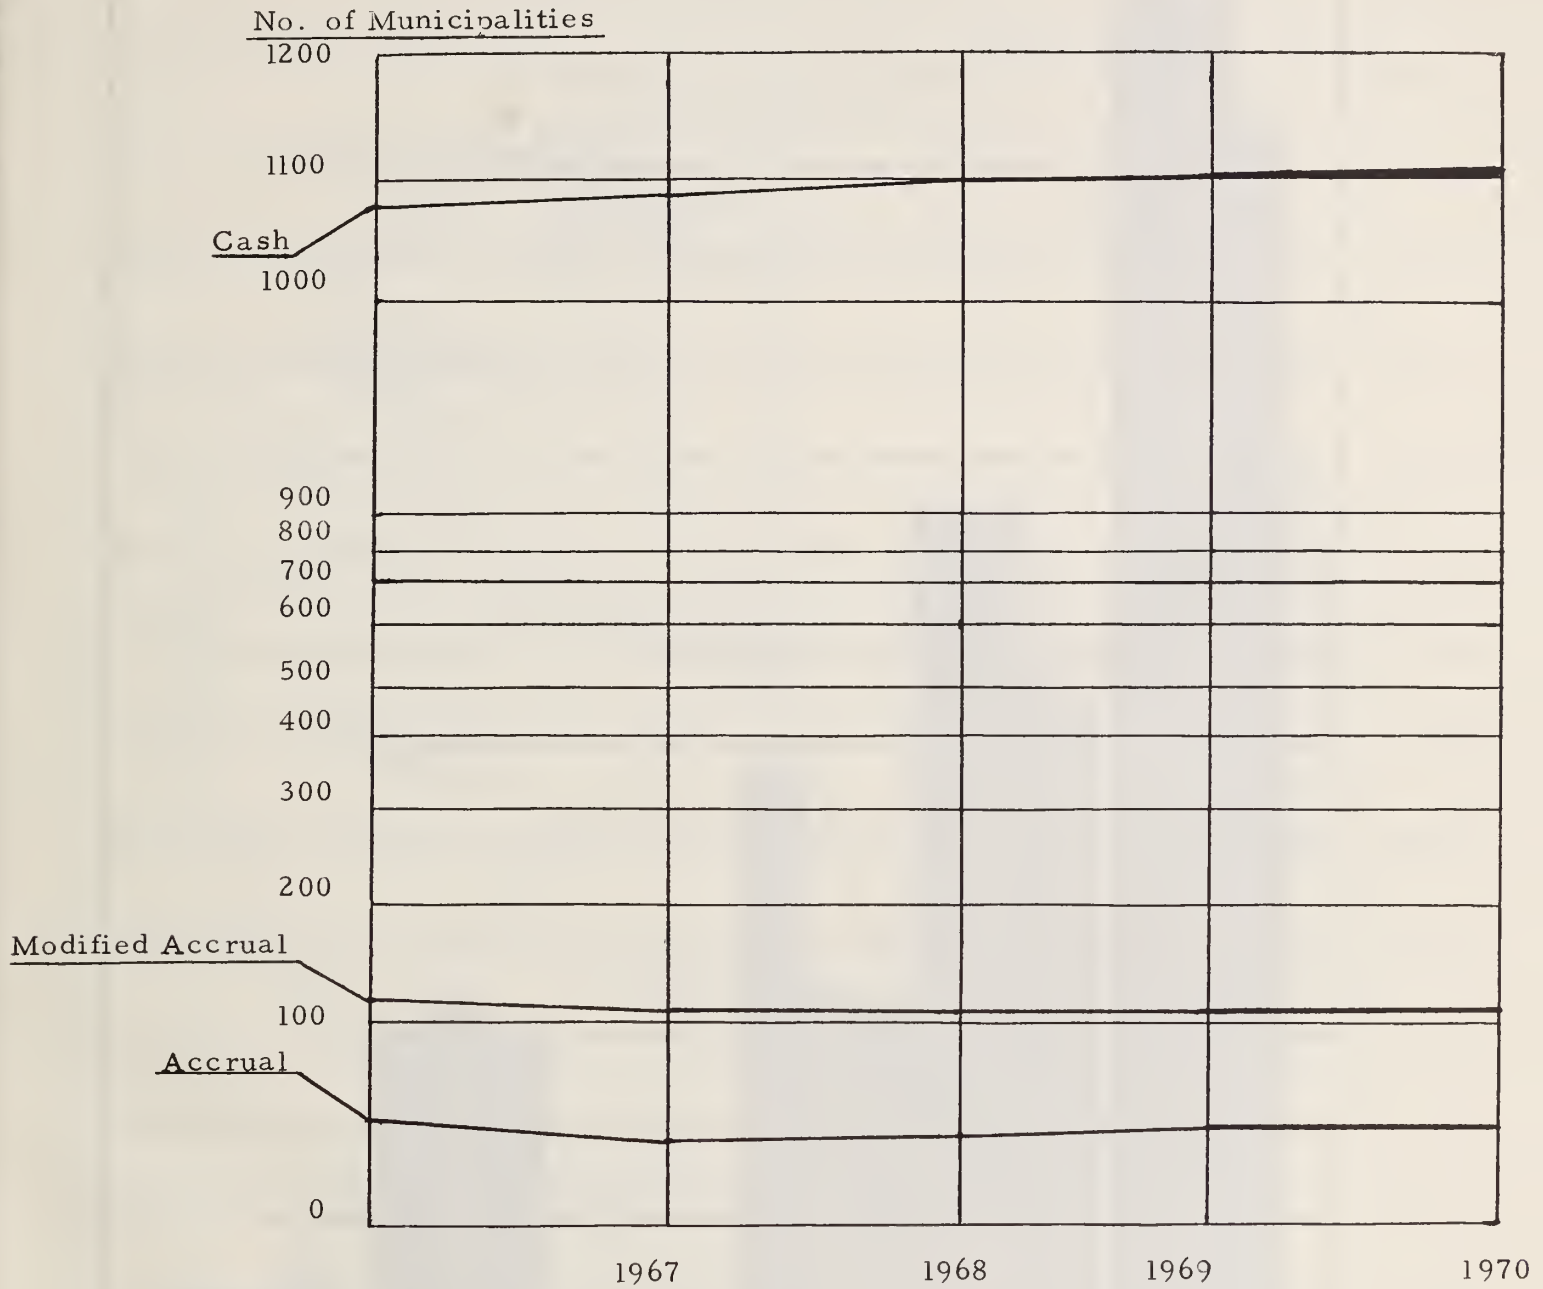

Chart No. 3

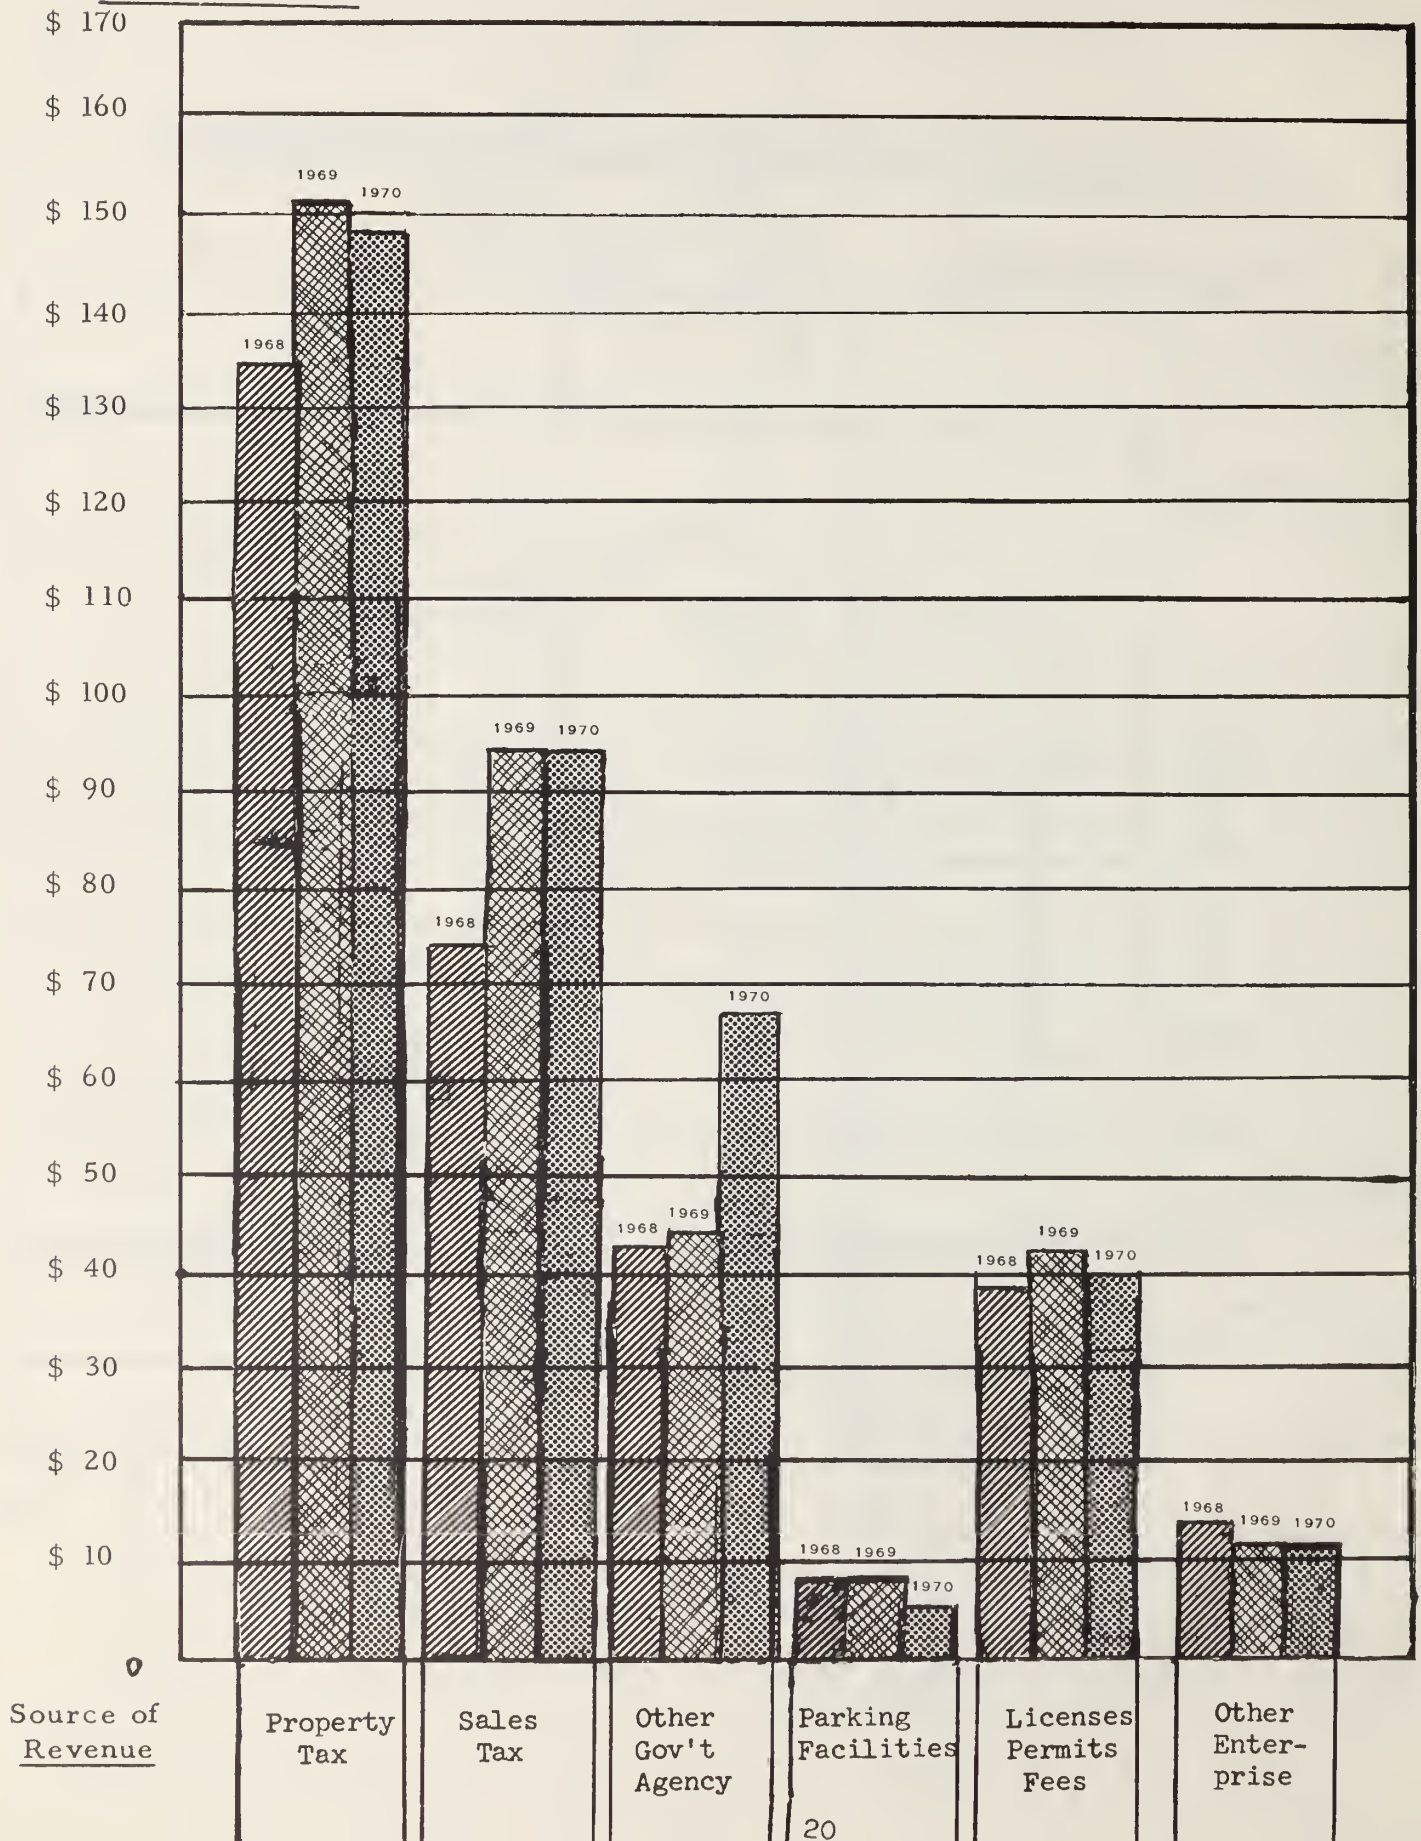

Month upon which the Municipal
fiscal year ends

The number of municipalities using each type of accounting systems.

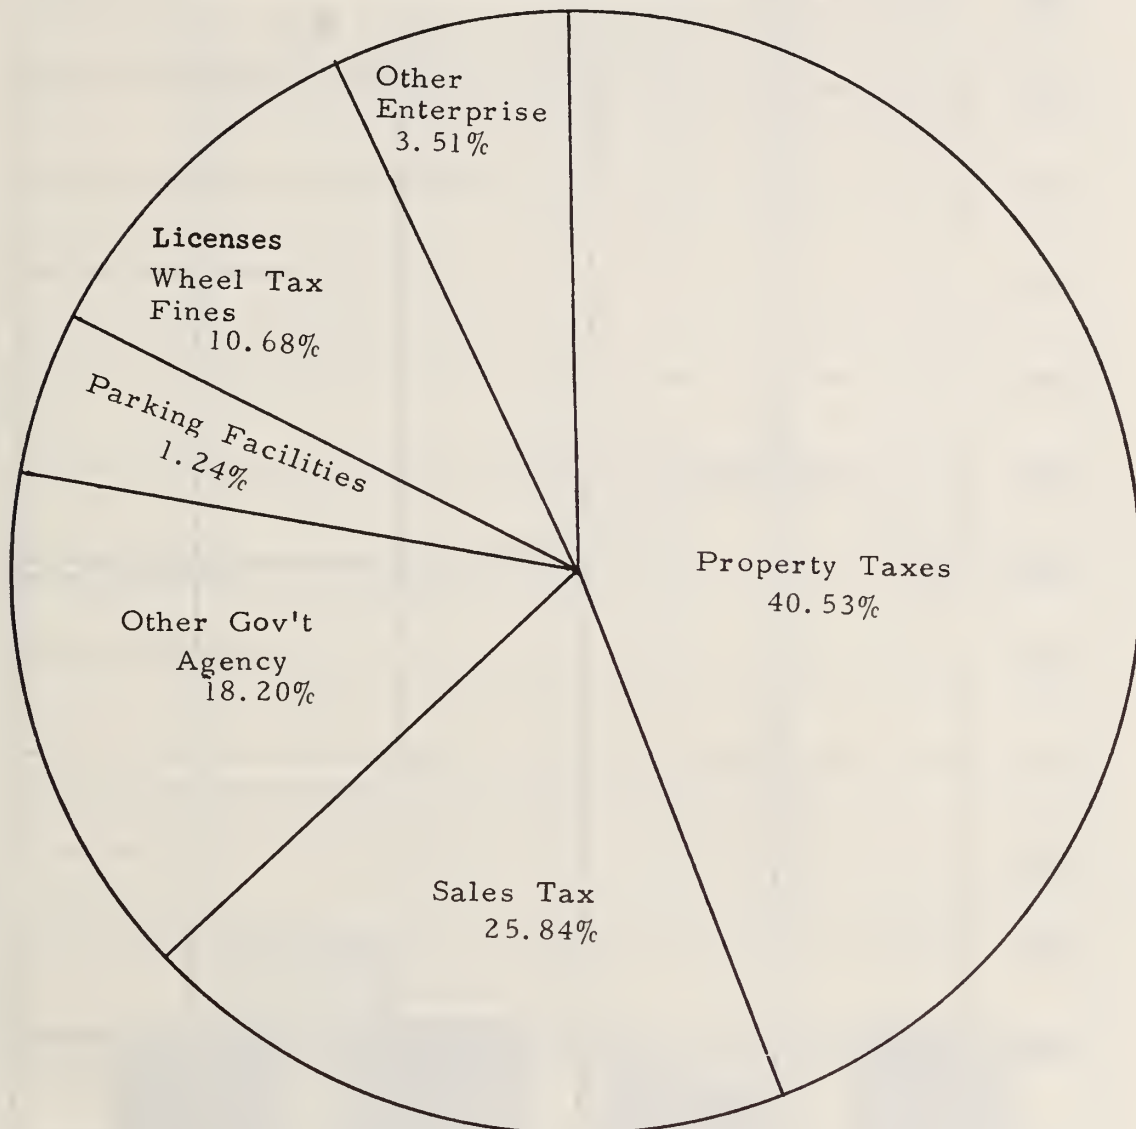

Revenue by major sources

Millions of Dollars

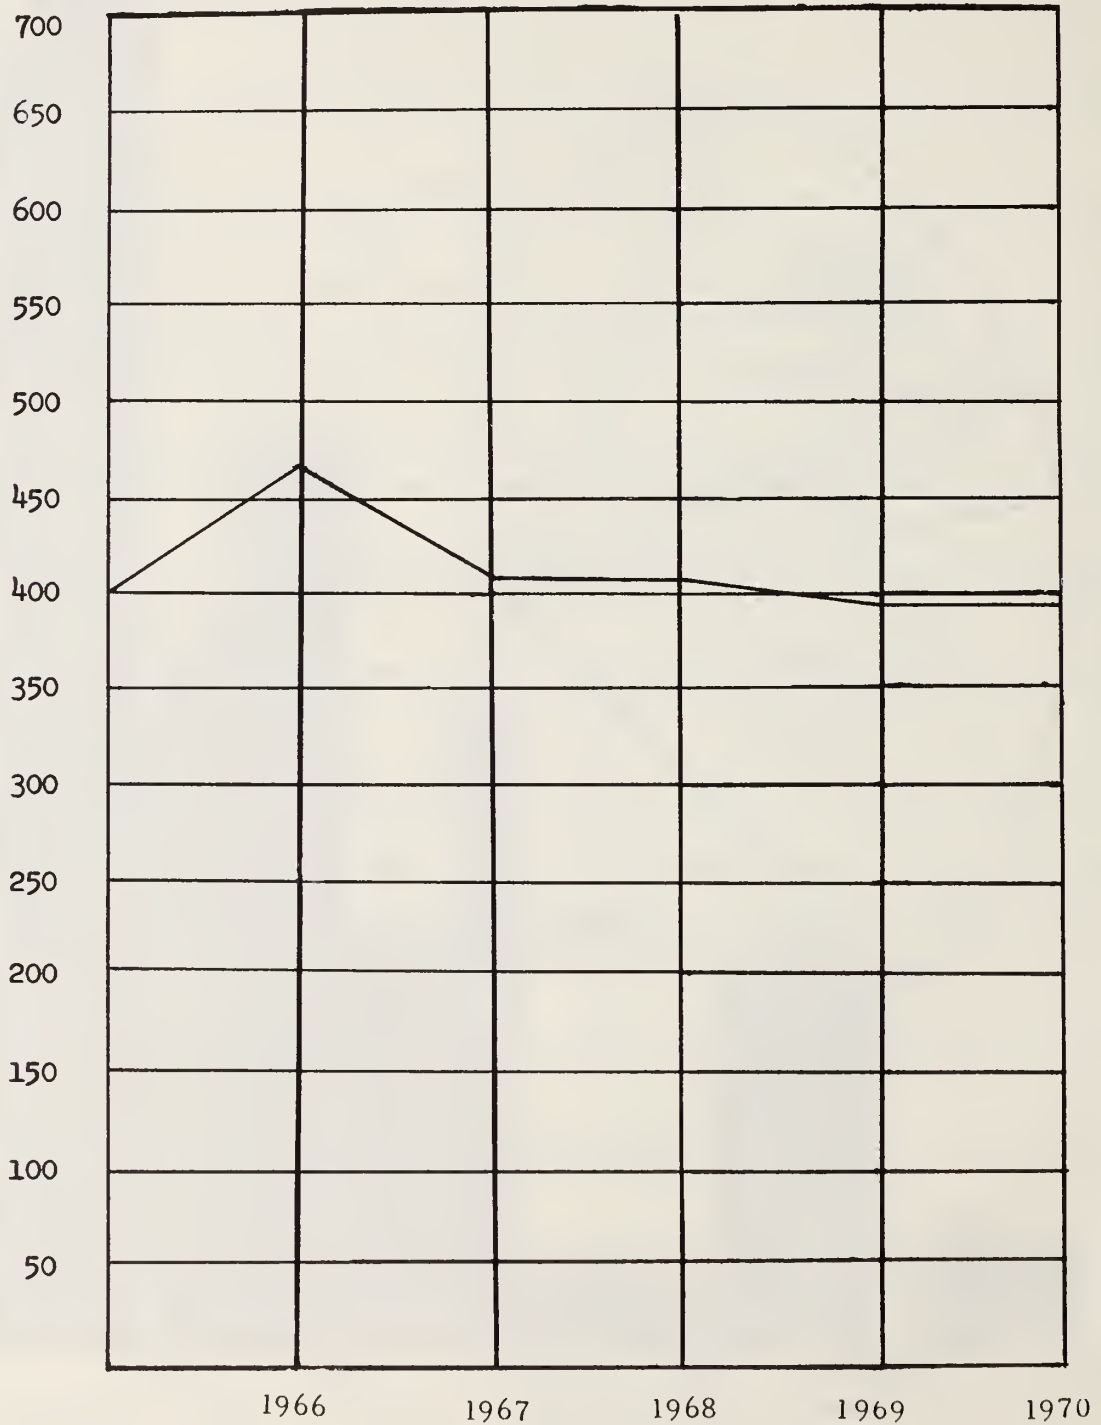

Percentage of revenue by major source, 1970

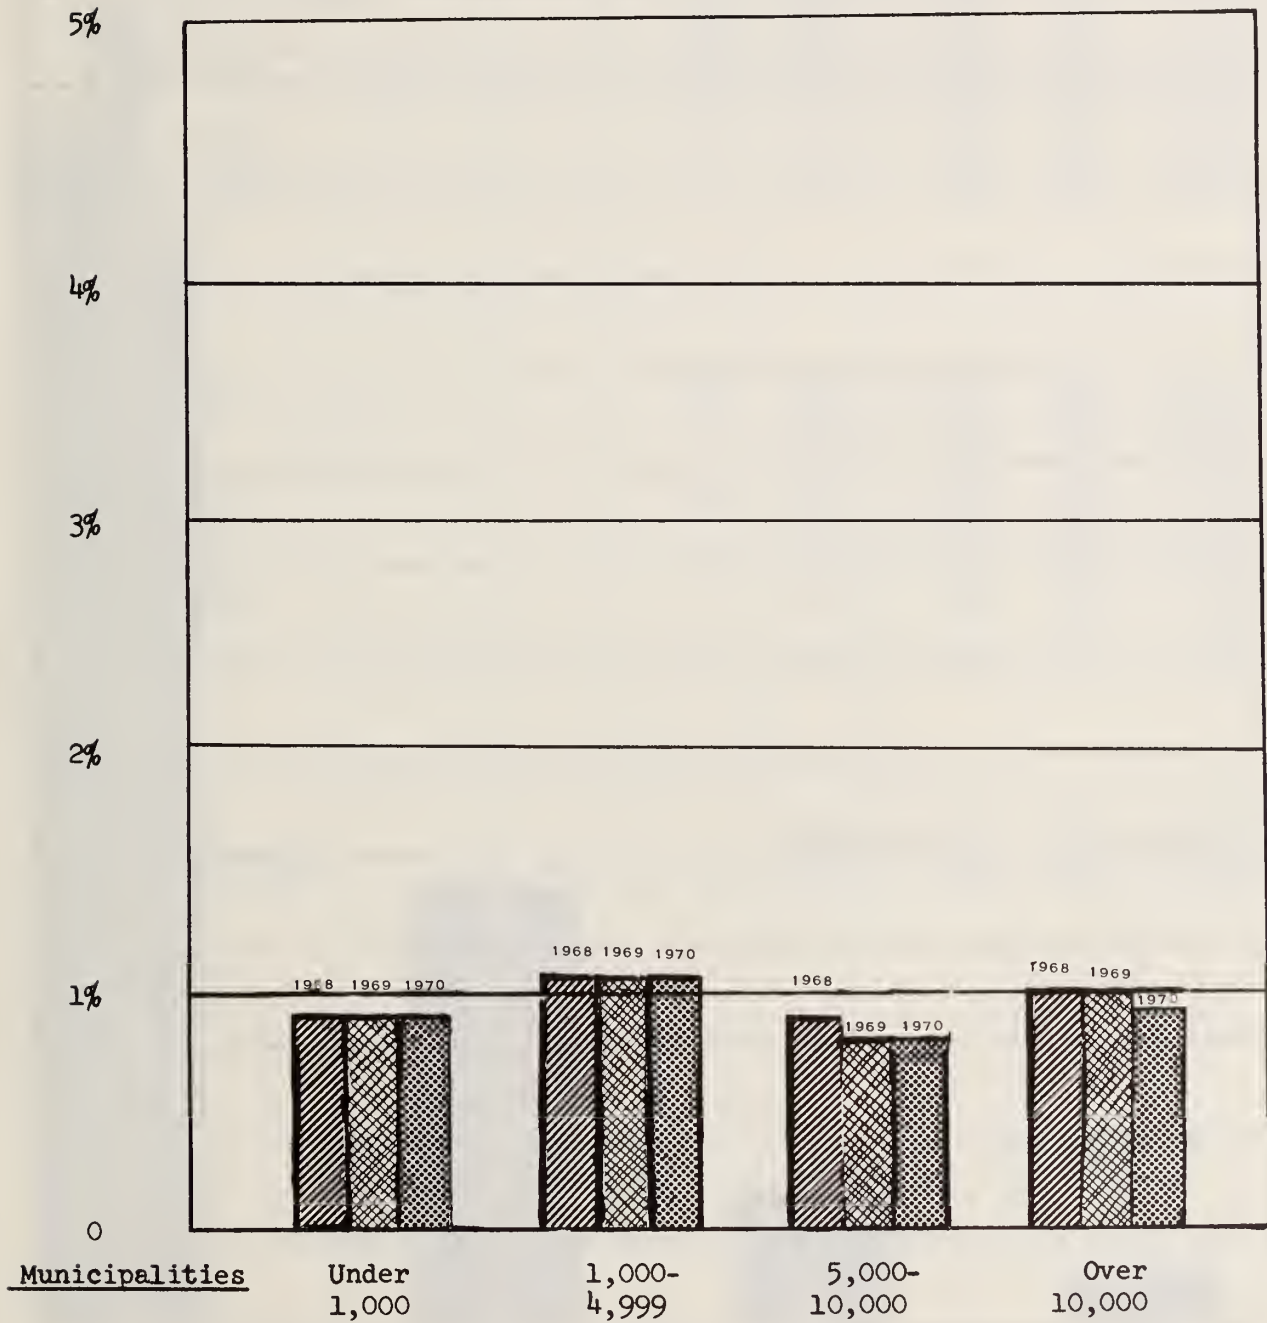

Number of Municipalities having garbage disposal service

No. of Municipalities

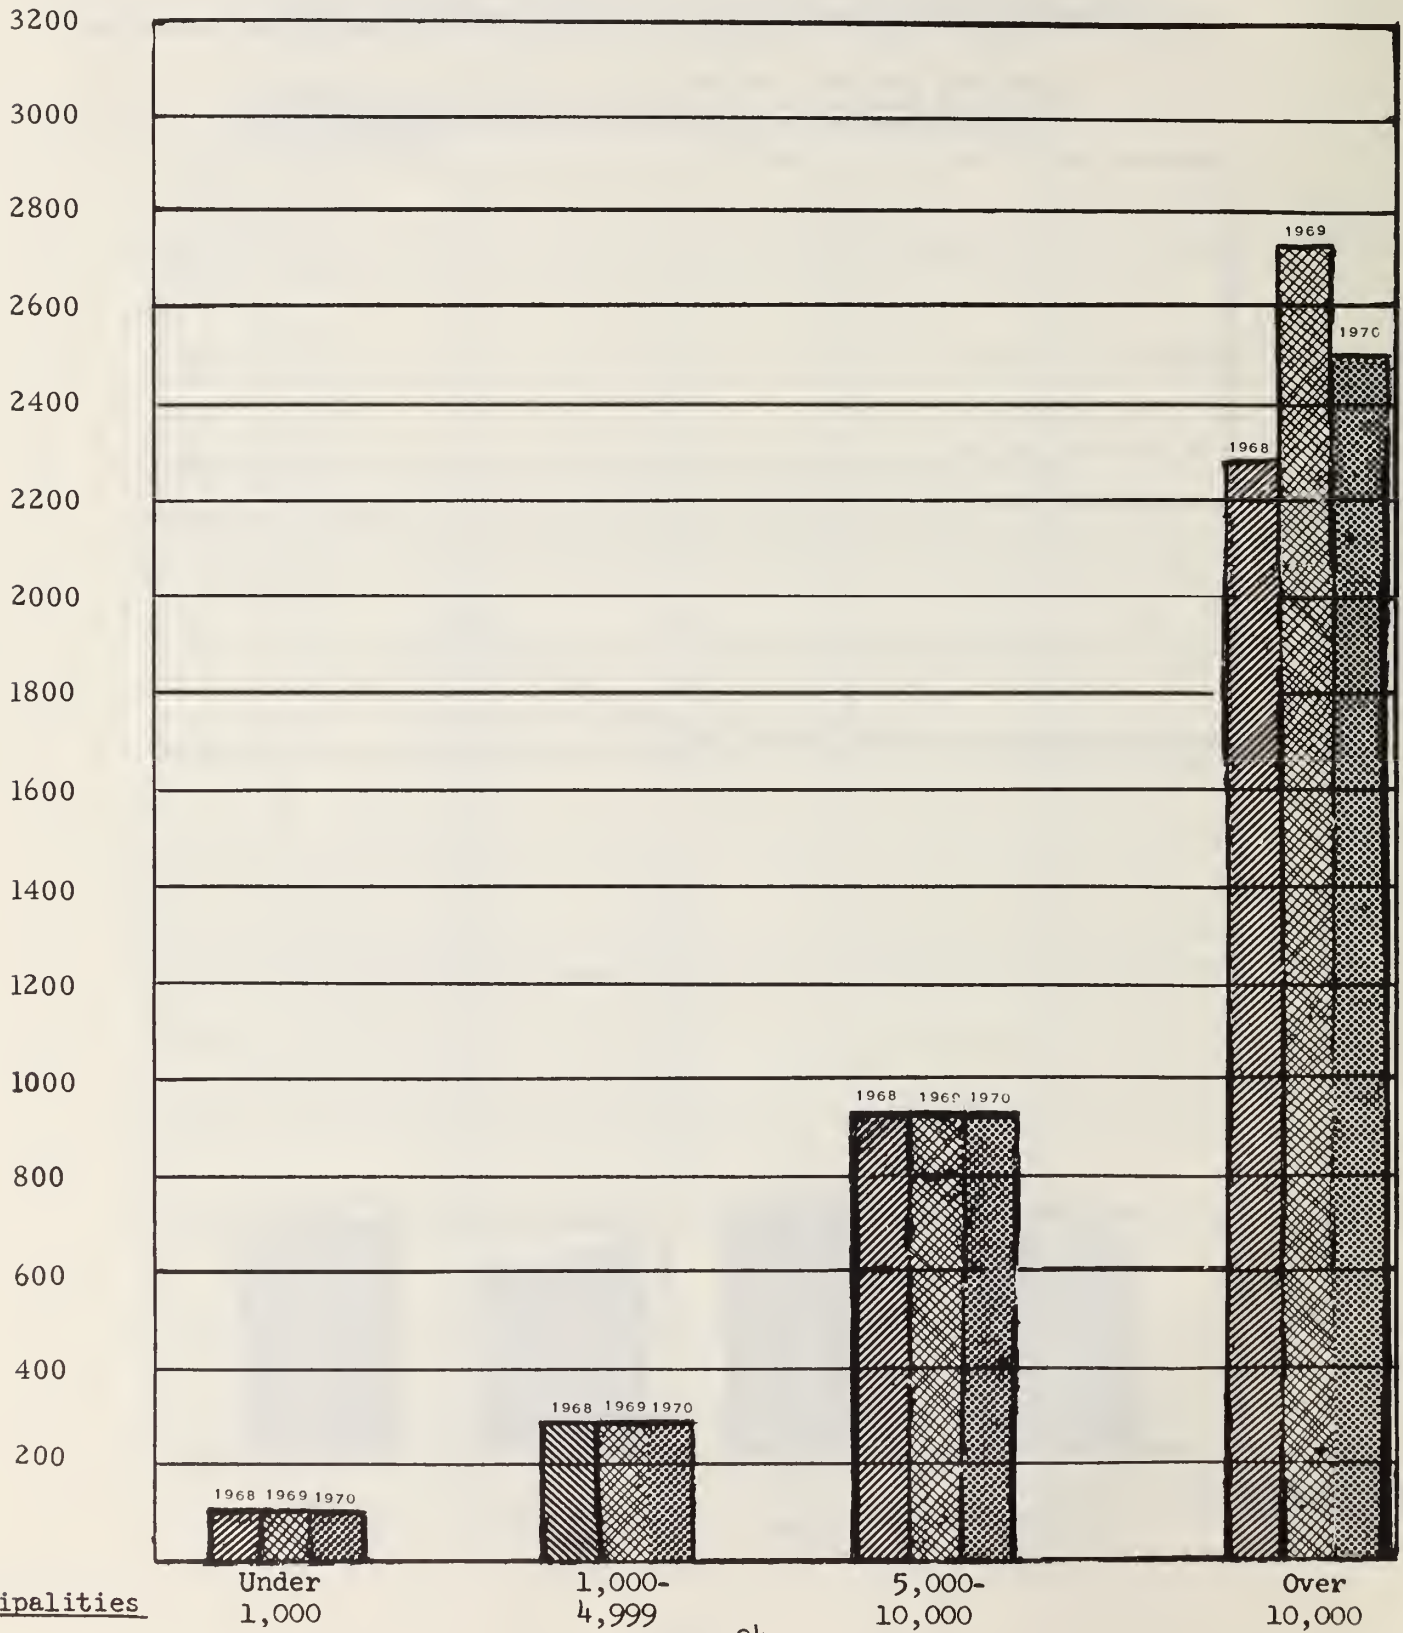

The percentage of general obligation bonds outstanding to the equalized
assessed property valuation by population grouping.

Revenue bonds outstanding - average dollar amount per municipality having a utility.

Thousands
of
Dollars

For Fiscal Years Ending During 1970
